Mr. David S. Addington  
Subcommittee on Legislation  
Permanent Select Committee on  
Intelligence  
House of Representatives  
Washington, D.C. 20515

Dear Dave:

In response to your inquiry on early retirements, we find that one of the most telling indications of the potential impact of taxation of Government pensions provisions in the tax reform bill has been the number of retirements that have taken place. As the likelihood of the bill's passage increased, we have seen a sharp rise in retirements over a comparable period in 1985. The enclosures provide full details.

Sincerely,

/s/ David D. Gries
